1. The following is an examiner's statement of reasons for allowance: The certified translation removes Blatter et al (6,406,757B1 or WO 99/41323) as a prior art reference and applicant's amendments to the specification have now been properly presented and supported.

Other art of interest, but not prior art, include Blatter et al (6,531,189 B1); Sapper (2004/0077750 A1); or Weikard et al (2004/0018318 A1), who have teachings concerning treatment with near IR and/or of wood substrate. The patent to Ranger (4,520,048) is directed to an apparatus for drying the coating on a paperboard or permeable board substrate, hence is considered capable of treating wooden objects as in claim 14, with Ex 3 on col.10, teaching drying effected in 1.4 sec or a throughput of 170 m/min, thus capable of times as claimed, but the coating material is a dispersion of clay, latex, water, etc., so cannot be considered to provide capability of allying a lacquer coating.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication should be directed to Marianne L. Padgett at telephone number (571) 272-1425 on M-F from about 8:30 am - 4:30 pm.
